

Radiator Cover Order

10231

Room Label

Enter the overall depth of the radiator including feet, from the wall

Enter overall height of radiator from floor including all plumbing

Enter the dimensions of your base trim. A square cutout will be made at the back of your cover to these dimensions to allow the cover to sit flush to the wall

Width

Height

Enter total width of radiator including all valves feet and other parts of the heater or plumbing

Finish Options:

- Unfinished (sanded)
- Primed
- White Satin Enamel

Additional Notes:

Please note any restrictions to the overall size of the cover including being under a window, tight to a corner, or where special cuts need to be made.

Would you like an installation kit with your order? This allows the heater to be mounted to the wall and allows the cover easy removal for cleaning.

Yes

No

Actual outside dimensions of your cover will be 1.25" higher, 1.25" deeper and 2.5" wider than the dimensions of your radiator given, not including the overhang on the top which protrudes another 1/2" beyond these dimensions. Please be sure these dimensions will fit within the space you have around your heater. If they do not, please list those restrictions above.
